NRC Docket No. 50-461Subject: Clinton Power Station, Security Plan, Training and Qualification Plan, and
Safeguards Contingency Plan, Revision 1

In accordance with 10 CFR 50.54, "Conditions of licenses," paragraph (p)(2), AmerGen Energy Company, LLC (AmerGen), is submitting this letter to document a change to the Clinton Power Station (CPS) Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan.

The revision includes the following changes:

The Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan has been revised to increase the minimum number of security responders by defining additional armed responders that the site maintains in order to implement the protective strategy. This increase resulted in changes to generic definitions as well as other clarifying information being added. A change matrix detailing these specific changes is provided in Attachment 1.

As required by 10 CFR 50.54(p)(2), AmerGen has evaluated the changes and concluded that the changes do not decrease the safeguards effectiveness of the CPS Security Plan, Training and Qualification Plan, and Safeguards Contingency Plan.

In accordance with 10 CFR 50.4(b)(4), "Security plan and related submissions," we are submitting the original signed version of this letter.
