COMMENT:

Jornada Experimental Range is under "Proprietorial Interest only" which usually means State Control but note asterisk * indicating that the property was withdrawn from "Public Domain" for use by the Dept. of Agriculture. Conclusion - This is a Federal Government Problem. Since a Federal Employee directed the study on NON-Public Domain land.

The Jornada Experimental Range Las Cruces, New Mexico

Location

The Jornada Experimental Range is located 23 miles (37 kilometers) north of Las Cruces, N. Mex. The major portion of the Range is on the Jornada de Muerte Plain, which lies between the Rio Grande Valley on the west and the San Andres Mountains on the east. The crest of the San Andres Mountains roughly coincides with the eastern boundary of the Range.
