Subject: Latrobe Hospital HDR move, Control No. 137340

Andy,
I have a few questions regarding your amendment.

1)Which areas are you regarding as restricted, and which as unrestricted?
2)How do you ensure that the simulator and the HDR cannot be run at the same time? I need something like separate keys, like you would do for accelerators.
3)How do you fasten down the HDR itself so that it cannot be moved without authorization?

Please fax your replies to 610-337-5269 c/o the above control number. Thank you.
