Dear Ms. Ullrich:

This is in response to your letter dated February 8, 1993, requesting additional information concerning our application to amend License No. 19-00915-03.

The enclosed letter dated November 16, 1993, from Kris Havstad, indicated the actions that individuals at USDA's Jornada Experimental Range in Las Cruces, New Mexico, will take relative to inspecting the burial site. In addition to their actions, the Radiological Safety Staff will review the burial site during routine inspections of the location. Documentation of the RSS inspection findings will be available for your review in my office.

If you have any questions, please contact me on 301-344-0193.

Sincerely,

A handwritten signature in black ink, appearing to read "John T. Jensen".
