| Summary: | <p>In order to complete the action I needed a list of all the sealed sources that the Bon Secours and Altoona sites would like to use for 35.400. The list that was provided appeared as if it only the Bon Secours sealed sources were listed. I spoke with Dr. Vince and he stated that the only additional sources that the Altoona site would like to be authorized for are prostate seeds. The manufacturer and model numbers that they would like to have listed are Draximage Model LS1 and Mills Biopharmaceutical Models I-125 SH and I-125 SL. These models will be added to the list of 35.400 sealed sources.</p> | |
