Telephone No. 302-737-5990

Subject: Amendment to add Satyajit Sarangi, M.D. as an AU for I-131 < 33  
(NOTE: This will be used as the millicuries  
Documents Title in ADAMS)

Summary: During the July 20-21, 2005 inspection it was noted that Dr. Sarangi was not listed as an AU for the use of less than 33 millicuries of I-131. However, Dr. Sarangi had been treating patients with less than 33 millicuries of I-131 since at least July 2004. A letter dated February 6, 2003 was found by the licensee however, the letter was never received by the NRC. The letter requested that Dr. Sarangi be added to the license for I-131 use. In a telephone call between Dr. Sarangi and T. Weidner on 7/21/05 it was agreed that Dr. Sarangi would not use I-131 to treat patients until the issue of his authorization could be resolved.

I spoke with Ms. Rodriguez to explain what information will need to be provided in order to add Dr. Sarangi to the license for I-131 use. They will provide a copy of his ABR certificate, a completed preceptor form and documentation concerning his recentness of training and experience.

Ms. Rodriguez will have the information prepared and faxed ASAP.

Action Required: Wait for information
