Washington, D.C. 20555

Dear Sir or Madam,

This letter is in response to your letter of July 19, 2005, EA-05-006, regarding issuance of the order for additional security measures for transportation of RAMQC.

The additional security measures (ASMs) do not apply to this licensee's activities at this time. We do not have any plans to transport RAMQC. If conditions change and we are required to ship RAMQC, we will inform the NRC ninety (90) days in advance of the first RAMQC shipment.

We request that Mr. Bruce J. Sanza, Radiation Safety Officer for Northwestern University, be added to the list of persons authorized to receive safeguards information. Mr. Sanza attended the Region III stakeholder meeting on December 3, 2004.

Sincerely,

A handwritten signature in cursive script that reads "L. Todd Leasia".

L. Todd Leasia, Director
