COMMENTS:

I approve the staff's recommendation to engage in consultation with the appropriate Native American Tribal Governments who may be affected by the potential application for licensing of a nuclear reactor to be sited in Galena, Alaska, institute a Tribal Consultation Team, and attend the August 2005 YRITWC Summit. As suggested in its paper, the staff should share with the Commission its plans and resource requirements for development and implementation of a more defined consultation process should the staff determine that such a process should be considered for future activities in the course of this consultation.

**Commissioner Jaczko's Comments on SECY-05-0121  
Request To Consider Developing A Formal Tribal Consultation Protocol**

I approve the staff's recommendations to begin consultation with the Yukon Inter-Tribal Watershed Council. I believe there are important advantages that can be gained from engaging in this consultation and few, if any, disadvantages - especially given that the staff can accomplish these activities within existing budgetary resources. The overwhelming advantage in my mind is the possibility of increasing the public's trust and confidence in the NRC and in our decisions by establishing an open and transparent framework for communication with a crucial stakeholder population. I look forward to receiving additional information from the staff as this process evolves.

Commissioner Lyons' Comments on SECY-05-0121

I approve staff's recommendation to engage in consultation with the appropriate Native American Tribal Governments, as described, institute a Tribal Consultation Team, and support the August 2005 YRITWC Summit. These efforts will further serve to increase and strengthen our Tribal liaison efforts.
