and Incident Response

FROM: Roy P. Zimmerman, Director */RA by Michael Weber Acting For/*
Office of Nuclear Security and Incident Response

SUBJECT: APPROVAL OF INDIVIDUALS TO ACT AS AUTHORIZED
DERIVATIVE CLASSIFIERS AND DESIGNATORS OF
SAFEGUARDS INFORMATION

Under the responsibility assigned to me in NRC Management Directive and Handbook 12.2, Part I, paragraph B.1.b, I am requesting that the individuals in the Office of Nuclear Security and Incident Response (NSIR) who are listed in Attachment 1 be designated as authorized derivative classifiers in order to more effectively and efficiently carry out NSIR's mission. The individuals listed in Attachment 1 are directly responsible for the creation and review of classified policy, regulatory, technical, enforcement, and guidance documents; review of classified documents developed by contractor personnel; or supervision or management of NSIR staff who perform such duties. Because of the increasing number of classified documents being created or reviewed; and the continuing high tempo of work activities, I am requesting the individuals listed in Attachment 1 be designated as authorized derivative classifiers to ensure timely review and classification of work products developed by NSIR staff and contractors.

Separately, under the authority assigned to me in NRC Management Directive and Handbook 12.6, Part I, paragraph D.2, the NSIR individuals listed in Attachment 2 are authorized to designate information as Safeguards Information (SGI). The individuals listed in Attachment 2 are directly responsible for the creation and review of SGI policy, regulatory, technical, enforcement, and guidance documents; review of SGI documents developed by contractor personnel; or supervision of NSIR staff who perform such duties.

Please contact Mr. Philip Brochman, security advisor for the Division of Nuclear Security, if you have any questions on these matters.
