Subject: MOV Periodic Verification Program Commitment

Ronda,

Tom Scarbrough has been talking to Brian Hobbs and Craig Nichols concerning what we need to close out the engineering inspection finding concerning MOV testing. Since Greg Bowman from Region I is doing a P&IR inspection and plans to look at the resolution of the NCV, Tom does not need to review the documentation. However, since the inspection report won't be issued in time to support our safety evaluation, it would help us if Entergy issued an EPU supplement simply stating that the commitment in Supplement 16 (9/30/04) to revise the MOV Periodic Verification Program to include periodic at-the-valve testing and formalize the process for DC motor trending is complete.

Please let me know if you have any questions.

thanks,

Rick
