Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Additional information for amendment request	
Summary:	<p>August 9: I asked to speak with Dr. Torres, who submitted the amendment request, and was referred to Enid. I asked her if the 2 submitted drawings correspond to the same location. She said yes, the hot lab is being moved so the current PET room can be enlarged to add a PET/CT unit. I asked her to fax a drawing of the proposed layout of the new hot lab, including countertop and locations of radioactive materials preparation and storage. I also asked her to have Margie call me.</p> <p>August 9: Margie called. I told her that 35.300 possession limits now apply to all of 35.300, not limited to I-131. I asked if the current I-131 limit can be extended to apply to all of 35.300. She agreed. I told her we will correct the error in Item 9.C. that limits individual I-131 doses and change the language to "for which the patient can be released under the provisions of 10 CFR 35.75." I asked what is the correct way to list Margie's name on license as RSO (current license says M.M. deLozano; although renewal application listed it as Maria M. Palacios and several other licenses list it that way). Margie said that these are both variations of her name, and she prefers Maria M. Palacios.</p> <p>August 11: I called Enid and told her we received the fax of new drawings. I said that the 2 drawings appear to represent the same location, but there is more detail in the 2nd (wall to create an injection area). I asked if the 2nd drawing is the one accurately representing the new hot lab. She said yes.</p>	
Action Required:	Issue amendment today on expedited basis and fax to licensee.
