SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

On June 2, 2005, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive materials license. The NRC staff has reviewed your sealed source leak test results. Based on its review, the staff has concluded that: 1) all licensable radioactive material has been removed from your facility, and 2) residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and U.S. Nuclear Regulatory Commission license number 02-21080-01 for your facility at Tuba City, Arizona 86045, is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure(s) will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have questions or require clarification on any of the information stated above, you can call me at 817-860-8189.

Sincerely,

/RA/

Roberto J. Torres
Senior Health Physicist
Nuclear Materials Licensing Branch

Docket: 030-19746
License: 02-21080-01
Control: 470586

Enclosures: As stated

3. Form 314 or equivalent submitted: YES

Staff verified disposition of sealed sources by 1) receipt of Form 314 from licensee stating that portable gauges were transferred to a licensed entity, and 2) letters from CPN International acknowledging receipt of all 5 gauges.

4. Licensee transfer records discussed in 10 CFR Parts 30.35, 30.36, 30.51; 40.36, 40.42, 40.61; or 70.25, 70.38, 70.51 NO

5. NRC closeout inspection required: NO

6. Confirmatory or Side-by-Side Survey YES

Leak Test Results were submitted by the licensee. Results were negative.

Because the gauges did not leak while stored in the authorized facility, a survey was not required. Verification of the leak test results was sufficient.

Licensing staff completing form: Roberto J. Torres /RA/
