Summary: I was informed that neither the nuclear medicine technologist (NMT) nor Swapen Sen, President was at the facility. I spoke with Ms. Maddoll and informed her that more information was needed for the amendment. I requested that someone from management call me so that I could discuss the type of information required. She agreed to pass on the message.

8/2/2005 10:00 I spoke with Lisa Martorano, NMT. She informed me that the practice has continued performing nuclear medicine procedures since July 1, 2005 and S. Warren Gross, M.D. has not been with the practice since that time. I stated that I needed additional information on the physician that they requested replace Dr. Warren. I needed to know if Dr. Babaria was listed on another NRC license or an Agreement State license for the procedures requested or was boarded. Ms. Martorano stated that she did not know. Ms. Martorano stated that she would have Dr. Babaria get back in touch with me.

10:25 Dr. Barbaria stated that he was listed as the Radiation Safety Officer on NRC License Nos. 29-30289-02 and 29-30983-01 and has been performing cardiology procedures for thirty years. I checked ADAMS and confirmed the information. Dr. Barbaria indicated that the proper spelling of his name is Ashok Babaria, M.D., that the first name is often misspelled with a "u", and that "kumari" is the Indian equivalent of "junior" and should not be used.

Action Required: Place telephone log in ADAMS.
