

NOTE TO FILE

Reference: Capital Area R.T. Associates

License: 37-30075-01

Docket: 37-30075-01, 03033297

Mail Control: 137441

DATE OF NEXT INSPECTION

Last inspection was March 2005, with clear 591 issued. Next inspection date was set at March 2007.

During a recent licensing action, inspection interval was reduced (January 2006) based on potential concerns raised about an individual on the license. The current licensing action removes the individual from the license. Therefore the normal inspection interval can be resumed. I asked LAT to reset next inspection date back to March 2007.
