Frank Godbey
Radiation Safety Officer
Department of Health and Human Services
National Institute for Occupational Safety and Health
Robert A. Taft Laboratories, PHS
4676 Columbia Parkway
Cincinnati, OH 45226

Dear Mr. Godbey:

Enclosed is Amendment No.10 renewing your NRC Material License No. 34-07167-03 in accordance with your request.

Please note that in accordance with several phone conversations with you, the last being on July 6, 2005, all of your sealed sources, with the exception of nickel-63 listed in Subitem 6.J. in your NRC license, are only authorized for storage incident to disposal. It is our understanding that you will initiate disposal activities at the beginning of fiscal year 2006 when sufficient funds are available to support disposal activities. If our understanding is not correct, please immediately contact this office at 630-829-9873.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

F. Godbey

2

Sincerely,

James R. Mullauer, M.H.S.
Health Physicist
Materials Licensing Branch
