SUMMARY

We have reviewed your ~~letter~~ dated 6/17/05, requesting an ~~amendment~~ your byproduct materials license and find that we need additional information as follows:

1. The chemical/physical forms + purpose for these 3 radionuclides was not addressed in 6/17/05 letter. Please prepare your application completely + in accordance with NUREG 1550 Vol. 13. - Matt agreed to do this.

- I called Matt to find out what response is. Matt has been too busy to prepare it + need for amendment seems to be gone.

He may reactivate it later but agreed to voiding it now.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
