Please provide the following information to Dr. Ziada and Dr. Wu:

When they arrive at Vallecitos Nuclear Center they must proceed to the visitor entrance at the front security building. They should then call me or Matt O'Connor to inform us of their arrival. Because cellular phone reception at the site is poor they must speak directly to us rather than leaving a voice mail to ensure that we are aware of their arrival.

Daniel Sommerville: 408-202-1948 (cel)

Matt O'Connor: 925-862-4353 (office)  
408-488-2553 (pgr)

Once we are aware of their arrival then we will escort them onto the site.

Please also provide me with Dr. Wu and Dr. Ziada's email addresses so that I can confirm an agenda with them. I will keep Entergy on Cc for all communications that I have with them.

Thank you.

Dan

Rick:

For the steam dryer audit of GE's scale model test facility August 15-16, your point of contact will be GE's Daniel Sommerville. Dan can be reached at 408-925-1718 if you want to discuss logistics prior to the audit. Attached are road maps and directions to GE's Vallecitos Nuclear Center, 6705 Vallecitos Road Highway, Route 84, Sunol, CA 94586. Upon arrival at the Vallecitos Nuclear Center, after parking, entrance is via the guard station.

Dan is available this week, but will be out of the country next week. In his absence, you may contact GE's Dan Pappone (408-925-5320) if you require assistance in this regard.

We understand that Dr. Ziada and Dr. Wu will arrive on the afternoon of August 15.

Len
