2000 Day Hill Road
Windsor, CT 06095-0500

SUBJECT: INSPECTION 03003754/2004001, ABB PROSPECTS, INC.

Dear Mr. Conant:

This letter forwards NRC Form 591, "Safety Inspection," indicating that no items of non-compliance were found during the above described inspection of your licensed activities. Please retain the form in your files.

During this inspection, an assessment of your radioactive waste management, transportation, radiation protection, and quality assurance programs was conducted. Direct observations were performed regarding the decontamination and deconstruction of Building Complexes 1, 2, 5, and 17, subsurface pipe and systems segmentation and removal, and the use and calibration of survey instrumentation. Also, an assessment of your survey instrumentation comparison study was conducted. Discussions were held regarding controls for Special Nuclear Material accountability, temporary storage, and transfer to a licensed radioactive disposal facility. Based on the above discussions and document reviews, we determined that your programs were adequate to implement decommissioning activities and the license requirements.

No acknowledgment of this letter is required. However, should you have any questions, we shall be pleased to discuss them with you.

Current NRC regulations and the General Policy and Procedure for NRC Enforcement Actions are available at the NRC web site at <http://www.nrc.gov/materials/miau/mat-toolkits.html> and <http://www.nrc.gov/what-we-do/regulatory/enforcement> or by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

J. Conant
ABB Prospects, Inc.
