Subject: Re: ACTION: MD 8.3 Review for Millstone Scram with Complications

Paul,

Ex 2
Please call the HOO at [REDACTED] and ask to be connected to the Millstone conference call. Please have anyone you feel necessary join the call as well.

Thanks,

Brett

Brett,

I'll try to be in on the call to give the latest status of Millstone 3. Please provide bridge number.

Paul Krohn, Branch Chief,
DRP, Region I, Br 6.

>>> Eric Benner 04/18/05 11:13AM >>>
Gentlemen,

As you may have heard, Millstone Unit 3 had a scram with significant complications over the weekend (<http://nrr10.nrc.gov/roe/event/en-internal.cfm#en41607>). In accordance with Management Directive 8.3, Incident Investigation Program (http://www.internal.nrc.gov/ADM/DAS/cag/Management_Directives/md8.3.pdf), one of the roles of the NRR Office Director, Jim Dyer, is to discuss the merit of an Augmented Inspection Team (AIT) with the Regional Administrator and the Director of the Incident Response Center.

Our section has the responsibility for providing the AIT recommendation, in consultation with appropriate NRR staff, to Jim Dyer. Brett Rini of my staff will be setting up a meeting sometime today to develop our recommendation which, at a minimum, needs SPSB support and should ideally have SRXB and EMEB support. Please do your best to accommodate Brett and feel free to call me (301-938-9637) if you have any questions.

Eric Benner
Acting Section Chief
