Subject: Calcium-45 removed from license? Keep Dr. Bentivegna as Authorized User?
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: Since there were currently no authorized users using Calcium-45 on the license, I called to confirm if Ca-45 should be removed from the license. Dr. Bentivegna, who is still the contact person for the license said that Ca-45 can be removed from the license. I also asked, since there is a new RSO, if she would like to remain as an authorized user. Dr. Bentivegna said yes, she will remain an authorized user.
