Mr. Jack E. Whitten, Chief  
Nuclear Materials Licensing Branch  
Division of Nuclear Materials Safety  
Region IV, U.S. Nuclear Regulatory Commission  
611 Ryan Plaza Drive, Suite 400  
Arlington, Texas 76011

Dear Mr. Whitten:

Subject: U.S. Nuclear Regulatory Commission (NRC) License Request for Pa'ina Hawaii, LLC, Irradiator in Honolulu, Hawaii

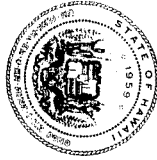

The application from Pa'ina Hawaii, LLC, for a license from NRC to build and operate a commercial pool type industrial irradiator in Honolulu, Hawaii, is subject to review and concurrence for Coastal Zone Management (CZM) federal consistency by the Hawaii CZM Program, in accordance with the Coastal Zone Management Act of 1972, Section 307(c), and the Code of Federal Regulations, Title 15, Part 930, Subpart D. The CZM federal consistency review and concurrence is a prerequisite to the issuance of the NRC license. The federally-approved Hawaii CZM Program identifies NRC permits and licenses for construction and operation of nuclear facilities as requiring federal consistency review.

The applicant should contact the Hawaii CZM Program to obtain the necessary federal consistency review information. If there are any questions, please contact Debra Tom of our CZM Program at (808) 587-2840.

Sincerely,

Laura H. Thielen  
Director
