**SUBJECT: CALLAWAY PLANT - NRC INITIAL OPERATOR LICENSING EXAMINATION
APPROVAL (EXAMINATION REPORT 05000483/2005-301)**

Dear Mr. Nasland:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Callaway.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Bruce Moody, Operating Supervisor. Note that any examination waivers and applications denials have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examination in accordance with Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," on August 18, 2005. The NRC staff will administer the operating tests during the week of August 22, 2005.

Please contact your Chief Examiner, Michael Murphy, at (817) 860-8152, if you have any questions or identify any errors or changes in the license level (RO/SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

/RA/

Ryan E. Lantz, Acting Chief
Operations Branch
Division of Reactor Safety
