Revised Monthly Operating Report

This letter provides corrected data previously submitted in the Monthly Operating Report (MOR) for Unit 1 from December 2003 through February 2005, and Unit 2 for February 2005.

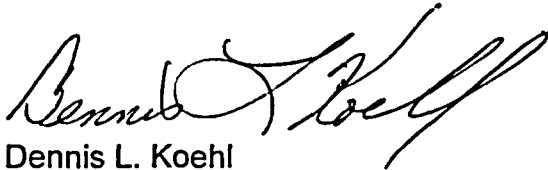

During April 2005, a comparison of data was performed as part of the transition from submittal of the MOR data to utilization of the INPO database, Consolidated Data Entry (CDE), for quarterly data submittal to INPO.

Discrepancies were identified in the Net Electrical Energy data for December 2003 through February 2005 for Unit 1 and February 2005 for Unit 2. The discrepancies were found to be from the software program that was used for the Monthly Operating Report.

Enclosure 1 is a table that provides the correct data for Net Electrical Energy Generated for Unit 1 from December 2003 through February 2005. Enclosure 2 is the revised Operating Data Report for February 2005 for Units 1 and 2. The March 2005 submittal for February 2005 data was the last time the MOR was submitted by NMC prior to receipt of NRC Safety Evaluation, dated April 1, 2005, which eliminated the requirement of PBNP TS 5.6.3 to submit the MOR.
