<p>Name of Licensee: Cellular Genomics, Inc.</p> <p>Name of Participant(s): Bari Gabbitas, Radiation Safety Officer Steven R. Courtemanche/NRC Health Physicist</p> <p>Telephone No. 203-315-1222 X100 610-337-5075</p> <p>Subject: Request for additional information. (NOTE: This will be used as the Documents Title in ADAMS)</p>		
<p>Summary: I spoke with Ms. Gabbitas about the licensee's request to amend the license. I asked her what prompted the name change. She stated that the name change was the result of a shift in the licensee's business from research to pharmaceutical testing research. There was no change in the corporate structure or change of ownership. I requested that she describe this change in writing. I went over the license and determined that one of the authorized users had left the employ of the company, i.e., Changqing Wang, Ph.D. Ms. Gabbitas stated that she would look over the program for any additional changes and request them in writing. Concerning the change in the frequency of wipe surveys for contamination, I directed her to NUREG-1556, Volume 7, Appendix Q. She stated that she would review the model procedure and decide if the licensee would adopt it or make changes and submit it for review. I informed her that I would send her a letter of the items that I wanted her to cover for the amendment and thanked her for her time in this matter.</p>
