Re: Response to Order for Additional Security Measures on the Transportation of Radioactive Material Quantities of Concern

In response to the July 19, 2005 Issue of Order for Additional Security Measures on the Transportation of Radioactive Material Quantities of Concern, the Marshfield Clinic will not be responsible for the transportation of radioactive material quantities of concern; therefore, compliance with the requirements of this Order is unnecessary in our specific circumstance.

Thank you for your attention to this matter.

Sincerely,

Christopher Kessler
