

August 29, 2005

MEMORANDUM TO: Anthony Tse
Rulemaking and Guidance Branch
Division of Industrial and Medical Nuclear Safety
Office of Nuclear Material Safety and Safeguards

FROM: Juan Peralta, Chief
Transportation and Storage Safety and Inspection Section
Licensing and Inspection Directorate
Spent Fuel Project Office /RA/
Office of Nuclear Material Safety and Safeguards

SUBJECT: OMB REVIEW OF ACTIONS COVERED BY THE CONGRESSIONAL
REVIEW ACT (TICKET NUMBER: 200500302)

The Spent Fuel Project Office (SFPO) develops and implements the U. S. Nuclear Regulatory Commission's licensing and inspection program for the storage of nuclear reactor spent fuel and the domestic and international transportation of radioactive materials.

We surveyed our sections within the SFPO and have found that no final rule has resulted in and is not likely to result in the next three months on:

1. an annual effect on the economy of \$100 million or more;
2. a major increase in costs or prices for consumers, individual industries, or geographical regions; or
3. significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises, in domestic and export markets.

This completes our actions in this Ticket Number 200500302. If you have any questions, please contact Frank Gee of my staff at 301-415-7414.
