Ms. Kathleen Mitchell
Tribal Historic Preservation Officer
Seneca Nation Tribal Historic Preservation

Re: National Historic Preservation Act Section 106 Consultation Process for the Proposed American Centrifuge Plant, Pike County, Ohio

Dear Ms. Mitchell:

This is a follow-up to your April 5, 2005 request for Phase I and Phase II Archaeological/Cultural Resource Reports related to the above referenced project. Your April 5, 2005 request followed our March 16, 2005 letter to Mr. Calvin John requesting if you have specific knowledge of any sites that you believe have traditional religious and cultural significance within the area of potential effects. In addition, we are interested in knowing if you are aware of or are concerned for any site, or object, eligible for inclusion on the National Register of Historic Places.

The Phase I and Phase II reports and other information can be obtained electronically on NRC's Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. ADAMS may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. Click on the button for "Web Based Access" and, on the next page, "Begin ADAMS search." Enter the ML number (i.e., MLXXXXXXXXXX) in the search field. The following documents may be of interest:

ML052200307, Phase I Archaeological Survey for the Portsmouth Gaseous Diffusion Plant (PORTS Facility), Pike County, Ohio
ML051110118, Archaeological Testing at Site 33PK210, Scioto Township, Pike County, Ohio
ML051510305, Environmental Report for the American Centrifuge Plant in Piketon, Ohio, Revision 1
ML043620096, License Application for the American Centrifuge Plant in Piketon, Ohio

For other documents related to NRC's Section 106 compliance process, I suggest using the Advanced Search on this website, searching the Docket Number field with the value "07007004" and the Title field with various keywords such as "106," Phase 1," "Cultural Resources," etc.

Additionally, the Draft Environmental Impact Statement (DEIS) is scheduled to be published in September 2005. The DEIS will present NRC's preliminary findings related to this undertaking, including a description of the "area of potential effects" and preliminary determinations of project effect. If requested, a copy of the DEIS will be forwarded to you for your review and comment.

If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to PDR@nrc.gov.

Please contact me if you have any questions.

Sincerely;

Ron C. Linton
