OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Ms. Vietti-Cook:

I support Westchester County Executive Andrew Spano's Petition for Rulemaking PRM-54-02. I am concerned that the current relicensing regulations are not in the best interest of the public - and our health and safety. Please help protect the public by ensuring that nuclear plants continue to meet the highest standards that are based on the most current experience and knowledge.

How cost effective is nuke power?

Did you add the cost that the American Tax payer is going to spend to protect and get rid of this one profit making company's nuke waste. I refuse to pay for it - I am a American Tax payer. And what about the Insurance issue in case of disaster? OH, thats right they are not liable for anything more than \$150,000 thanks to Congress last Energy bill. Which means the American People will have to pick-up the tab for anything more.
