Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Request for More Information, License Renewal	
Summary:	<p>I stated to Dr. Archer that the Trinity College license was limited scope and not a broad scope license. Dr. Archer in her application had stated that she authorized principle investigators to supervise the use of radioisotopes. I stated that based on the amount of radioactive material, Trinity College license should remain a limited scope and that she would need to submit the personnel names and background of those that would be principle investigators.</p> <p>I also discussed that all the sealed sources submitted in the application were exempt and did not need to be part of the license. I also confirmed that Dr. Frank Kirkpatrick is the proper management contact for the license and his telephone number is 860-297-2130.</p> <p>I discussed the need to only list Jacobs Life Science Building as the location of use. I stated that we would send a followup letter for the additional information needed.</p>
