Re: Umetco Maybell Colorado Radioactive Materials License #660-01-plans to submit a
Completion Review Report (CRR)

Dear Mr. Lohaus:

The Umetco Maybell uranium site has almost completed decommissioning activities. They anticipate completion of the work by the end of 2005 and would like to terminate their Colorado Radioactive Materials License #660-01.

It is our understanding that in accordance to the Guidance in Section V.A. of *SA-900: Termination of Uranium Milling Licenses in Agreement States* that NRC staff have visited the Maybell site. This letter is to notify you that Colorado plans to submit a draft Completion Review Report (CRR) to NRC in late 2005 or early 2006.

If you have any questions about the project, please call Mr. Phil Stoffey at 303-692-3452 or e-mail at philip.stoffey@state.co.us.

Sincerely,

Joseph Vranka, Manager
Radiation Control Program
