Charles D. Luke, Chief  
Criticality Evaluation Br.

UNITED NUCLEAR, CHEMICAL DIVISION, DOCKET 70-36

In recent correspondence to the applicant relative to the September inspection, the building in which pelletizing operations are carried out has been incorrectly designated as Building 250-2.

Consequently, in the October 8 letter, subparagraph 5, line 3, 250-2 should be changed to 255-2. Also, in the December 7 letter delete that part of the last line which reads ", and the pelletizing area, Bldg. 250-2."
