Subject: **Request for Correction to Safeguard Condition for Extension of Time to Fundamental Nuclear Material Control Plan Commitments for SNM-1168 (Docket 70-1201).**

Enclosure: (1) Details of affected shipments

Dear Mr. Gleaves,

Framatome ANP – Mt. Athos Road Lynchburg facility requested a 60 day extension from Fundamental Nuclear Material Control Plan (FNMCP) requirements for the completion of the computation of Shipper Receiver Difference (SRD) for the shipments shown in enclosure (1). This extension was granted and a Safeguards Condition, SG-1.3, was issued. The date in the last sentence of the condition was in error. The date issued reflected an expiration date based on the date of the first receipt of the referenced shipments, but should have been based on the last receipt. Please correct the condition to provide a 60 day extension from the last receipt which would be November 5, 2005. Should you have any questions, please do not hesitate to contact me at 434-832-5276.

Sincerely,

Charlie Holman
