Subject: (NOTE: This will be used as the Documents Title in ADAMS)	Deficiencies in application discussed.	
Summary:	<p>I spoke with Mr. Carlson and determined that he was a medical consultant for the licensee. I indicated to Mr. Carlson that the application was deficient in four areas and he took notes. (1) In case of emergencies, the phone number, fax number and e-mail address of the RSO. (2) The signature certifying the application was illegible and did not indicate the position in management of the signer. (3) The location of use is listed on Yale-New Haven Hospital's license. I need confirmation that the applicant's and the location of use on Yale-New Haven Hospital's license are not the same location. Also, I need confirmation that the location of use is not found on any other NRC license. (4) The qualifications for the requested authorized users cite a broad scope license without a letter from the Radiation Safety Officer indicating what the broad scope program has authorized the physicians. Alternatively, the applicant could provide the board certifications which were indicated to be attached. Mr. Carlson requested that a fax be sent to him when the deficiency letter is finalized.</p>
