Licensee requested to name Christopher James as AMP. Only use on license requiring AMP is Sr-90 eye applicator. Licensee submitted a copy of Mr. James' ABR certificate in Therapeutic Radiological Physics, issued in 1986. Per discussion with Peter Mas, licensee's physics consultant, Mr. James works as therapy physicist, primarily with linear accelerator treatments, and is actively involved with NRC-licensed material in prostate seed implant program.

This individual qualifies as AMP for Sr-90 eye applicator based on board certification; the work described above satisfies the 35.59 requirement for continuing training and experience.
