Subject: Re: McGaffigan meeting

Thanks Dave. We were told by the EDO's office to keep at arm's length. That's why NRR was not in attendance. I informed Johnson of what you sent. I asked him if he needed any more info. No need to send me anything else unless I hear from him.

Last Thursday, nobody wanted to get near this, now everybody wants to know! We are opening an allegation (RI-2002-A-0132). All issues are SAlem/Hope Creek specific. We will be referring them to the licensee for review. Some issues contain SAFEGUARDS INFORMATION. I can give you a brief summary via e-mail after I assure myself what is and isn't SAFEGUARDS.

My management asked me to follow up with you on the outcome of the meeting last Friday with McGaffigan and the security officers. Particularly they want to know if any new allegations were identified and who the responsible office would be. Can you give me a short email info dump when you get a chance?

Thanks
