Main Office Inspection      Next Inspection Date: 8/2010

Field Office \_\_\_\_\_

Temporary Job Site \_\_\_\_\_

**PROGRAM SCOPE**

Licensee is engaged in research and development of products containing radioactive material. This licensee is located in Matawan, MN. Licensee uses radioactive materials in the development of new products and for testing of existing product lines and processes.

**Performance Observations**

The inspector toured the facilities and interviewed authorized users staff members. Each appeared knowledgeable in radiation safety and isotope handling techniques. Package receipt procedures were demonstrated for the inspector as well as rad waste handling practices were discussed. Independent surveys by the inspector did not detect any abnormal reading and were within the expected range.

The inspector observed the material use areas and found them to be adequate. Records of shipments were reviewed as well as material inventory control procedures. Techniques employed by the staff demonstrated good handling practices as well as adequate knowledge of radiation safety. During the course of the inspection, no abnormalities were noted.
