RE: Amendment Request to License Number 37-06864-06

Dear Mr. Ragland:

This letter is to request that our radioactive material license be amended to add Jurg L. Jaggi, Ph.D. as an authorized medical physicist for gamma knife procedures.

Dr. Jaggi has attended the approved Gamma Knife course offered at the University of Pittsburgh on July 11-15, 2005. We have enclosed a copy of the certificate from the training course as well as Dr. Jaggi's curriculum vitae. Dr. Jaggi received formal training in radiation physics and received an M.Sc from the University of London in 1976. Dr. Jaggi is a Clinical Associate Professor of Neurosurgery at the University of Pennsylvania Medical School and is involved with stereotactic techniques in that department. Dr. Jaggi is also a long standing member of the Radiation Safety Committee of the University of Pennsylvania.

137591

NMS 015-10100-1ALS-002

We understand that Dr. Jaggi has not been directly involved in radiation oncology recently, but his past training and experience in radiation physics together with his current work in the Neurosurgery Department makes him an excellent choice for being an authorized medical physicist for Gamma Knife procedures. We request that if you decide that Dr. Jaggi does need more current experience in medical physics that you advise use what additional experience would be required to fulfill the Commission's requirements.

I may be reached by phone at (215) 829-3865 or by e-mail at shabasol@pahosp.com.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Leonard Shabason". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Leonard Shabason, Ph.D.
Radiation Safety Officer

University of Pittsburgh

Center for Image-Guided Neurosurgery

This is to Certify That

Jurg L. Jaggi, Ph.D.

Attended

Principles and Practice of Gamma Knife® Radiosurgery

from July 11-15, 2005

L. Dade Lunsford, M.D., FACS

Douglas Kondziolka M.D., M.Sc., FRCS(C)

John C. Flickinger, M.D.

Arin H. Maitz, M.Sc.

Jurg L. Jaggi

Home Address:

Office Address:

University of Pennsylvania
Department of Neurosurgery
330 S. Ninth Street, 4th floor
Philadelphia, PA 19107 USA

Relevant Experience:

In 1974 and 1975, while at University of Zurich, Dr. Jaggi completed 1 year of full time training in therapeutic radiological physics and an additional 8 months work experience under the supervision of the senior radiation physicist, Eric Svensson and the head of the Department, Prof. Wolfgang Horst. He conducted full calibrations, periodic spot checks and routine area surveys on two Gammatron Telecobalt units and a 45 MeV Betatron. He also performed routine patient treatment planning. An additional year of full time work related experience was obtained at the Swiss Institute for Reactor Research.

Since 1975, Dr. Jaggi's experience has focused on diagnostic uses of radiation in the field of neuroanatomy. These uses have included the use of Xe-133 and a variety of PET radiopharmaceuticals for cerebral blood flow studies and brain function research. He has attended the course: Advanced Techniques in Image-Guided Brain and Spine Surgery, Mount Sinai School of Medicine, New York on December 15-16, 2000. He has performed stereotactic targeting and neurophysiological monitoring for Deep Brain Stimulation surgery (>350 cases). Most recently, he has attended the course: "Principles and Practices of Gamma Knife Radiosurgery", University of Pittsburgh Medical Center, July 11-15, 2005.

Dr. Jaggi has served on the University of Pennsylvania Radiation Safety Committee since 1991. He has been a member of the Radioactive Drug Research Committee since 1989, serving as Chair since 1996.

UNIVERSITY OF PENNSYLVANIA - SCHOOL OF MEDICINE
Curriculum Vitae

Date: August, 2005

Jurg L. Jaggi

Home Address:

Office Address:

University of Pennsylvania
Department of Neurosurgery
330 S. Ninth Street, 4th floor
Philadelphia, PA 19107 USA

Education:

1973 B.S. Hochschule für Technik NTB, Buchs, Switzerland (Electrical Engineering)
1974 B.S. Hochschule für Technik NTB, Buchs, Switzerland (Bioengineering)
1976 M.Sc. University of London, England (Radiation Physics)
1985 Ph.D. University of Pennsylvania, USA (Bioengineering)

Military Service:

1969 Swiss Army

Faculty Appointments:

1980-1985 Research Associate, Division of Neurosurgery, University of Pennsylvania
1985-1987 Oberassistent, Universitäts Kinderspital Zürich, Switzerland
1987-1993 Research Assistant Professor, Depts. of Psychiatry and Neurosurgery, University of Pennsylvania
1993-1994 Research Assistant Professor, Department of Neurology, University of Pennsylvania
2000-2001 Adjunct Assistant Professor of Neurology, University of Pennsylvania School of Medicine
2001-2005 Clinical Assistant Professor of Neurology, University of Pennsylvania School of Medicine
2005-present Clinical Associate Professor of Neurosurgery, University of Pennsylvania School of Medicine

Hospital and/or Administrative Appointments:

1974-1975 Physicist, Department of Radiotherapie and Nuklearmedizin, University of Zürich, Switzerland
1976-1977 Physicist, National Institute for Reactor Research Würenlingen, Switzerland
1977-1980 Research Specialist, Division of Neurosurgery, University of Pennsylvania

**PERSONAL INFORMATION WAS REMOVED
BY NRC. NO COPY OF THIS INFORMATION
WAS RETAINED BY THE NRC.**

1987-1993	Technical Director, Clinical Neuropsychiatric Diagnostic Unit, Department of Psychiatry, University of Pennsylvania
1993-2002	Scientific Director, Cerebral Blood Flow Laboratory, Cerebrovascular Research Center, Department of Neurology, University of Pennsylvania
2000-present	Director of Intraoperative Monitoring Parkinson's Disease & Movement Disorders Center, Department of Neurology, University of Pennsylvania
2002-2005t	Associate Director for Research, Parkinson's Disease Research, Education and Clinical Center (PADRECC), Veterans' Administration Medical Center, Philadelphia
2004-present	Associate Director, Center for Functional and Restorative Neurosurgery, Department of Neurosurgery, University of Pennsylvania

Awards, Honors and Membership in Honorary Societies:

1970-1972	President Student Council Hochschule für Technik NTB, Buchs, Switzerland
-----------	---

Memberships in Professional and Scientific Societies:

Biomedical Engineering Society
International Society of Cerebral Blood Flow and Metabolism

Editorial Positions:

1989	Sitevisitor for the Injury Research Grant Review Committee (IRGRC), Centers for Disease Control, Atlanta GA.
1993-1994	Ad hoc reviews for: Annals of Neurology, Journal of Cerebral Blood Flow and Metabolism.

Academic Committees at the University of Pennsylvania and affiliated Hospitals:

1989-present	Radioactive Drug Research Committee
1991-1995	PET Center Executive Committee
1991-present	Radiation Safety Committee
1996-present	Chairman, Radioactive Drug Research Committee

Lectures by Invitation:

Mar 1985	Children's Hospital, University of Zürich, Switzerland, Methodological considerations in pediatric cerebral blood flow studies.
Jan, 1989	Children's Hospital, Pittsburgh, Regional cerebral blood flow in preterm children.
Apr, 1992	Loyola University Chicago, Recent advances in rCBF methods.

- Sep, 2000 Medical College of Virginia, Richmond,
Intraoperative Monitoring of DBS surgery.
- Mar, 2001 Philadelphia International Medicine
Lecture Series, Washington DC, Deep brains stimulation in
Parkinson's Disease.
- Sep, 2001 St. Francis Medical Center Honolulu, Hawaii,
Electrophysiological target localization in deep brain stimulation
surgery.

Organizing Roles in Scientific Meetings:

- Mar, 2004 First Philadelphia Deep Brain Stimulation Programming Seminar.
Parkinson's Disease and Movement Disorders Center, Penn
Neurological Institute, Zubrow Auditorium, Philadelphia, PA 19107
- May, 2005 Second Philadelphia Deep Brain Stimulation Programming Seminar.
Parkinson's Disease and Movement Disorders Center, Penn
Neurological Institute, Zubrow Auditorium, Philadelphia, PA 19107
