Subject: Withdrawal of License Amendment Application to Change Design
Requirements for Emergency Diesel Generators (License Amendment Request
03-0017, TAC No. MC3058)

Ladies and Gentlemen:

By letter dated May 3, 2004 (Serial Number 3006), the FirstEnergy Nuclear Operating Company (FENOC) submitted a license amendment application for the Davis-Besse Nuclear Power Station (DBNPS). The proposed amendment would have changed the facility as described in the DBNPS Updated Safety Analysis Report to modify the design requirements for the emergency diesel generators. FENOC has elected to pursue design modifications that would eliminate the need for this license amendment. Therefore, FENOC requests that this license amendment request be withdrawn.

Enclosure 1 provides a list of regulatory commitments made in this submittal. If there are any questions concerning this matter, please contact Mr. Henry L. Hegrat, Supervisor - Fleet Licensing, at (330) 315-6944.

Very truly yours,

MAR
