Ambrosino, Michael;
EMP.# [REDACTED]

As per your request the above mentioned employee has been evaluated today in the Nuclear Medical Department. As a result of that evaluation, it has been revealed ~~that~~ ~~is~~ taking medication in the evening hours, this medication usually may produces the side effects of sedation and drowsiness, these side effects are noted and the employee is working in a safety sensitive work position, you may wish to reassign ~~him~~ to a non-safety sensitive position. It is recommended the employee not perform call-out while on the medication.
If you have any further medical questions please contact the Nuclear Medical Department.
