Subject: Follow-Up to a Prior Salem Concern

FYI:

A while back we dispositioned an allegation involving a potential H/I issue at Salem where an individual reported being harassed for issues surrounding [redacted] participation on the TARP team. I think that Barry may have subsequently contacted the individual and I believe that the individual reported that [redacted] turned the issue over to the employee concerns program and was "satisfied" (for the moment).

This afternoon the PSEG employee concerns representative stopped by the office and reported that they completed their review of this event (they don't know that we previously received an allegation in this matter) and did not find any evidence of H/I. They also indicated that the individual was not happy with this conclusion and that [redacted] may come to see us.

Ray
