LISLE, ILLINOIS 60532-4352

AUG 17 2005

Eric C. Zickgraf, Ph.D.
Radiation Safety Officer
The Community Hospital
901 Macarthur Blvd.
Munster, IN 46321

Dear Dr. Zickgraf:

Enclosed is Amendment No. 57 to your NRC Material License No. 13-15882-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that the following brachtherapy sources were not listed on your license at this time; Nycomed Amtersham Mode 6733, Imagyn Isostar Model IS 12501, IBT 1251, and Mentor MBI Model 123SH Prostaseed. These sources could not be found in the Sealed Source and Device Registry (SSDR) and no Registry number was provided in your response. If you wish to have these sources listed on your NRC license, please either provide the SSDR sheets or the SSDR number. Also note that Gary Dillon was not listed as an Authorized Medical Physicist (AMP) at this time. At such time when Mr. Dillon has written and signed certification that he has passed all parts of the certification examination, you may request an amendment to have Mr. Dillon listed as an AMP.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

E. C. Zickgraf, Ph.D.

2

Sincerely,

James R. Mullauer M.H.S.
Health Physicist
Materials Licensing Branch
