**RE: Order Imposing Additional Measures on the Transportation of Radioactive
Materials Quantities of Concern**

Dear Sir:

We are writing to inform you that we consent to and shall complete the implementation by January 17, 2006 of the requirements set in the Order EA 05-006, Order Imposing Additional Measures on the Transportation of Radioactive Materials Quantities of Concern.

Compliance to the order will be done through our supplier/manufacturer, MDS Nordion, who has received a copy of the order and assumes responsibility of the licensed radioactive material for transport to our South Carolina Facility and ships it under the order EA 05-006.

Bausch & Lomb assumes responsibility for the control and security of the radioactive material, once it is installed in the source rack of our irradiator.

If you have any questions or require further information please feel free to contact me by telephone at 864-281-3134.

Yours sincerely,

Kenneth J. O'Connor
RSO / Sr. Validation Engineer
