Subject: VY EPU - 5th set of draft RAIs - **Contains Proprietary Information**

Len,

Attached is the 5th set of draft RAIs. The changes include revised proprietary markings and Zena's updates. I've attached a redline strikeout so you can see the changes that were made. Note, the proprietary markings are slightly different than GE suggested. Please have them verify that they agree with my changes.

Note, I am now putting this set into formal concurrence. The only changes I would expect from this set to the final formal RAI would be minor editorial changes.

If Entergy's external email is still not working, please forward this to those on cc.

thanks,

Rick
