Gentlemen

In an effort to try and get this allegation closed, I had the opportunity to speak with Jack Carey regarding another issue and I asked Mr. Carey if they had provided the alleged with the dose records we have been dealing with. Mr. Carey informed me that on June 10, 2002, they sent the alleged a letter providing the alleged with his whole body count records and the opportunity to go to PSEG and discuss the results. As of this date, 7/9/02, they had not heard from the alleged regarding their offer.

I asked Mr. Carey if he could fax me the information they provided to the alleged. Mr. Carey faxed me the cover letter but stated the information they had provided the alleged was a 6-7 page very detailed computer printout of his dose. I told Mr. Carey that I was not sure that the tech staff would not want to see the detailed computer printout as well so we were aware of what was provided to the alleged. Mr. Carey stated he could copy the computer printout but that it was medical records and would have to have their attorney (Mr. Keenan) prepare a cover letter before he mailed the document to us.

Will the more detailed computer printout be required for us to review in order to close this allegation?

Sharon
