Marc

Did you get the individual's address? Or did they not want to provide their address.

If you just forgot to obtain - please try and get the individual's address and provide to our office.

Thanks  
Sharon

Attached you will find a Allegation Receipt Form for an allegation I received on Jan 30, 2003 concerning Salem. I have recently sent a fax containing supporting information.

I believe that this allegation can be discussed during the Feb 19 ARB. After discussions with Glenn last week, it was decided that the form could be completed today due to other tasks on-going last week. We pursued this option because the allegation had been evaluated by PSEG previously and they are aware of the concerns.

If you have any questions please let me know.
