I will be here next Friday--Lets make it early if possible

Jack Carey just called me and said that they would not be able to make it here next Thursday, because his security people have a conflict with that date. He is tentatively shooting for next Friday (6/14) at 2:00 p.m., but he needs to check with the security people first. He will call me back on Monday morning. Could you please get back to me and let me know your availability for next Friday, so I have an answer for him when he calls. Thanks.
