Some comments:

There is no 'c' in Chidakel. It's Adensam not Anderson. (I know my handwriting is atrocious, but you should see my mother's.) Please add W. Borchardt to the list of attendees.

It is not clear what "matter" was reviewed by OI that they could not make a determination on.

Please delete the EA number for the individual. I know that your files are not public, but we try to avoid linking EA numbers with individual's names.

No matter what the outcome ~~is~~ and the allegor will receive letters informing them of the NRC decision, even if no action is taken.

I was directly responsible for the allegor's negative performance appraisal.
