Secretary U.S.

Nuclear Regulatory Commission

Subject: I do not support Andy Spano's Rulemaking Petition PRM-54-02

Dear Sir:

I am a resident living in Westchester and benefiting from the clean energy generated by the Indian Point nuclear power plant located in Buchanan, New York. I am concerned that the County Executive's myopic Rulemaking Petition PRM-54-02 may be interpreted as a universal sentiment of Westchester's residents. This proposal is irresponsible and reckless in light of the current energy shortages and it is proposed solely to shut down the plant and ultimately nuclear power. One just has to look at the excellent safety record of the Buchanan plant, the nuclear power industry in the US, the environmental implications regarding green-house gases and nuclear power's role in minimizing the dependency of the United States on the vicissitudes of OPEC policies.

I categorically do not support Westchester County Executive Andy Spano's 2.802 petition PRM-54-02.

Sincerely,

Template=SECY-067
