We have received written confirmation from *JAPAN*

, that the above material, proposed for export, will be subject to all the terms and conditions of the following Agreement for Cooperation: *Between the Government of the US and Japan.*

which entered into force on *July 10 1968*; and that the ultimate consignee is authorized to receive and possess the material. We are of the opinion, therefore, that the issuance of the export license would not be inimical to the interests of the United States.
