

JUL 17 1973

R

Mr. Edward J. Bauser
Executive Director
Joint Committee on Atomic Energy
Congress of the United States

Dear Mr. Bauser:

This is to inform the Joint Committee that the Atomic Energy Commission plans to issue a license to Gulf United Nuclear Fuel Corporation, for the export of 27.1 kilograms of special nuclear material to Canada.

The uranium to be exported is in metallic form enriched to 93.3% in uranium-235 and will be shipped to Atomic Energy of Canada Limited, Chalk River, Canada, for manufacture of fuel for the NRX Reactor at Chalk River.

The proposed export of special nuclear material is within the scope of the Agreement for Cooperation Concerning Civil Uses of Atomic Energy Between the Government of the United States of America and the Government of Canada which entered into force on July 21, 1955, and is subject to its terms and conditions.

Sincerely,

Original Signed by
Richard E. Cunningham

for S. H. Smiley, Deputy Director
for Fuels and Materials
Directorate of Licensing
